MARINE GREASE

GR015

LIQUID WRENCH® Marine Grease offers superior rust and corrosion protection from salt water, salt air and atmospheric chemicals. Special water-insoluble formula recommended for corrosive marine applications —trailer wheel bearings, water pumps, hinges, pins, winches, anchor chain reels. This is an Overbased Calcium Sulfonate grease, which is characterized by exceptional corrosion protection, high dropping point and mechanical stability. Due to its unique chemistry, this product provides superior protection against corrosion in harsh, corrosive environments. The very high load carrying ability, excellent resistance to water, oxidation and corrosion, and outstanding performance in a wide temperature range, make it a high performance premium grease. This grease exhibits excellent pumpability characteristics. This Marine Grease contains no heavy metals or other harmful or environmentally undesirable additives such as phosphorus, chlorine, zinc, phenols, antimony, barium or lead.

APPLICATIONS:

- Superior Rust & Corrosion Protection
- Special Water-Insoluble Formula
- For Trailer Wheel Bearings, water pumps, hinges, pins, winches, anchor chain reels
