# INSTANT TIRE REPAIR

M1108OPE

**GUNK® OUTDOOR EQUIPMENT INSTANT TIRE REPAIR** is designed to seal and inflate tire punctures on specialty tires in seconds. For lawn, garden, carts, trailers, ATVs, off-road & turf equipment. READ ENTIRE LABEL FOR IMPORTANT SAFETY INFORMATION. DO NOT USE on motorcycles, bicycles, or ATV's with less than four wheels where deflation and loss of control can result in serious injury. Product will not seal faulty valves, sidewall punctures, major tire damage, or if tire separates from rim.

## APPLICATIONS:

- Quick and convenient - no tools, no jack, no mess
- Non-Flammable - tire sensor safe formula
- Seals most punctures up to 3/16" on tubeless tires
- Before using, read entire label and all safety information

**CAUTION:** As soon as possible, remove tire from rim, clean it, inspect for damage, and have permanently repaired. Before repairing puncture, completely release pressure in a well-ventilated area. Do not weld or attempt rim repair without first removing tire from the rim. NEVER INFLATE A TIRE WITH OXYGEN. FAILURE TO FOLLOW INSTRUCTIONS COULD RESULT IN EXPLOSION AND SERIOUS INJURY.

**DIRECTIONS:** SHAKE WELL BEFORE USING: 1. To ensure complete spray out of contents, warm container to room temperature (above 50°F). 2. If object that cause puncture is still in tire, do not remove. 3. For best results rotate puncture to 6 o'clock position. Fully screw nozzle onto tire valve stem and inflate tire. 4. Inflate until can is empty. Rim should be off the ground; 10 to 15 pounds of pressure is adequate. DO NOT INFLATE TO GREATER THAN MANUFACTURER'S RECOMMENDED TIRE PRESSURE. 5. Unscrew nozzle from valve stem. Immediately drive slowly for 5 minutes to allow sealant to spread evenly and form a bond with inner surface of tire or tube. DURING PROFESSIONAL REPAIR: Do not weld or attempt other rim repair without first removing tire from the rim. NEVER INFLATE TIRE WITH PURE OXYGEN. FAILURE TO FOLLOW INSTRUCTIONS COULD RESULT IN EXPLOSION AND INJURY.

**STORAGE, HANDLING & DISPOSAL:** Store only in trunk or spare tire compartment, never store in interior of vehicle. Exposure to prolonged sunlight or heat source may cause can to burst. Do not expose to heat, sparks, open flame or store at temperatures above 120°F. Do not puncture or incinerate container. This is a single-use product. Use and dispose of container, product and residue in accordance with all local, state and federal laws and regulations. Do not puncture or incinerate container. This is a single-use product. Use and dispose of container, product and residue in accordance with all local, state and federal laws and regulations.

**DANGER:** Use only with adequate ventilation. INHALING CONCENTRATED VAPORS, INTENTIONALLY OR OTHERWISE, CAN CAUSE DEATH WITHOUT WARNING.

**FIRST AID:** EYE CONTACT: Flush thoroughly with water for 15 minutes while lifting eyelids and get prompt medical attention. SKIN CONTACT: Wash with soap and water. If irritation develops, get prompt medical attention. INHALATION: Move to fresh air. If breathing becomes difficult, get prompt medical attention. INGESTION: DO NOT INDUCE VOMITING. Call Poison Control Center, Physician or Hospital Emergency Room immediately.

## KEEP AWAY FROM CHILDREN AND ANIMALS
